## CAREER

With 4 years of experience as a Software engineer, I have a proven track record in various technologies. My expertise includes identifying web-based user interactions, translating designs and wireframes into high-quality code, and writing application interface code via ReactJS/Next Js workflows. I also have experience developing RESTful APIs with NodeJS and working with database systems such as MongoDB and MySQL. In addition, I have hands-on experience with AWS-Serverless and Angular13.

## PROJECTS

### Multifamily Kwikset

Multifamily is a multi-vendor project which mainly comprises AWS cloud architecture and an angular base web portal. It provides facilities like a user management portal.

### Brand overflow (App) (Website)

Brand overflow is an All-in-One SEO Software. It has many tools that help to optimize and rank your website.

### Topicmojo (App)

Topicmojo analyses popular search engines like Google and discovers every useful phrase or question people are asking about your keyword.

### Mailwarm.io (Web app)

MailWarm.io is a marketing software. It helps you to increase the chance of landing your emails in your inbox by monitoring and warming up your emails.

## Skills

- ReactJS, NextJS, NodeJS, React Native, Angular 2+, MongoDB, HTML 5/CSS/JavaScript(es6+), Typescript, AWS Cloud, GraphQL Apollo, Git/Webpack/Babel, Web Extensions, SCSS/SASS, Styled-Components, Tailwindcss

## Work experience

### Software Engineer

August, 2022 - Present

#### [SperidianTechnologies](#)

##### Responsibilities

- Developing and implementing web applications using the MEAN and MERN stack.
- Designing and implementing RESTful APIs or GraphQL endpoints using Express.js for data retrieval and manipulation.
- Developing server-side applications using Node.js and Express.js framework.
- Working with MongoDB MySQL database to design schemas, perform CRUD operations, and optimize database queries.
- Developing and implementing serverless applications using AWS Lambda, API Gateway, DynamoDB and other related services.
- Setting up and managing infrastructure as code using AWS CloudFormation or AWS CDK to define serverless resources.
- Implementing authentication and authorization mechanisms, such as JWT or OAuth.
- Participating in Agile ceremonies such as sprint planning, daily stand-ups, and retrospectives.
- Working with version control systems (e.g., Git) to manage codebase and collaborate with other developers.

### Software Engineer

June 2022 - July 2022

#### [Get-licensed](#)

##### Responsibilities

- Developing and implementing web applications using Next.js and React.js frameworks.
- Collaborating with designers and other team members to translate UI/UX designs into functional components.
- Working with version control systems (e.g., Git) to manage codebase and collaborate with other developers.
- Participating in Agile ceremonies such as sprint planning, daily stand-ups, and retrospectives.

- Collaborating closely with product owners, designers, and other team members to define and refine project requirements.
- Keeping up with the latest trends and best practices in Next.js and React.js development.

## Software Engineer

October, 2020 - May, 2022

### Massive Ventures

#### Responsibilities

- Developed Single Page Web Application with React.js, Context API, Express.js, Node.js, REST API, and MongoDB.
- Used Postman to test API and used GIT as a version control tool.
- Translate wireframes into functional requirements, and write well-abstracted, reusable, high-performance code for UI components.
- Built Cross-platform mobile apps with React-native

## Front-end Developer

February, 2020 - October, 2020

### Inapp Solutions

#### Responsibilities

- Built responsive UI, on React.JS & React Native,
- API integration.
- Worked with firebase.

## Front-end Developer

August, 2019 - February, 2020

### Luitech Pakistan (PVT) Ltd.

#### Responsibilities

- Built Responsive static webpages, JavaScript functionally for dynamic behaviors
- Created Models and Views in dot .net

## Education

---

- **BACHELOR OF BUSINESS & INFORMATION TECHNOLOGY** (2023 - 2027)  
Virtual University
- **Diploma in Software Engineer** (2019 - 2021)  
Aptech Certified Computer Professional-EE.
- **H.S.C** (2016 - 2018)  
Pakistan shipowners Pre-engineering.

## Certificates

---

- [AWS Cloud Technical Essentials](#)
- [Meta introduction to backend development](#)
- [NodeJs Developer](#)
- [HackerRank Basic Javascript](#)
- [Freecodecamp responsive web design.](#)
- [freecodecamp Javascript algorithms and data structures.](#)
- [M001: MongoDB Basics](#)
